GUARDIAN AD LITEM
A CHILD'S ADVOCATE IN COURT

The [NC Guardian ad Litem \(GAL\) program](#) connects deserving children in the foster care system with area volunteers who become representatives for the children in the court system. GAL volunteers get to know their child and their home-life situation and then represent the child's best interest in court. GALs become voices for our children during times of change and uncertainty and play an important role in understanding the child's best interests.

Please [watch this brief video](#) expressing our program's mission.
